

SAP Product Costing Course Content

Introduction to SAP Product Costing Course Concepts:

SAP Product Costing Course Content Details:

INTRODUCTION

- ❖ Product Cost Controlling
- ❖ Product Cost Planning
- ❖ Cost Object Controlling with Make to Stock Scenario

Master Data Review for Product Costing

- ❖ Cost Elements
- ❖ Cost Center
- ❖ Activity Types
- ❖ Purchasing Info Record
- ❖ Master Recipe
- ❖ Resources in Process Manufacturing

Preliminary Cost Estimate

- ❖ Production Order Control for Product Cost by Order
- ❖ Sales Order Costing for Product Cost by Sales Order
- ❖ Product Cost Collector Control for Product Cost by Period
- ❖ Display Planned Costs

Product Cost Planning

- ❖ Cost Center Planning
- ❖ Activity Planning
- ❖ Maintain Distribution and Assessment Cycles
- ❖ Distribution and Assessment Execute Plan
- ❖ Activity Rate
- ❖ Costing Variant
- ❖ Cost Estimate including Execute Calculation,

Create Material, and Mark and Release Standard

- ❖ Analyze Costing
- ❖ Price Update
- ❖ Mixed Costing
- ❖ Reporting in Product Cost Planning
- ❖ Summarized Analysis
- ❖ Detailed Reports

PP-PI Make to Stock Cost Object Controlling

- ❖ Product Cost by Order - Make to Stock Value Flow
- ❖ Process Order
- ❖ ME Close Activities with WIP result
- ❖ Settlement
- ❖ ME Close Activities with Variance result
- ❖ Overhead Calculation
- ❖ WIP Calculation
- ❖ Variance Calculation

Costing Sheets, Cost Components

- ❖ Overhead, Calculation Base, Overhead Rate, Credit Key
- ❖ Cost Component Terms, Cost Components with
- ❖ Attributes, Cost Component View
- ❖ Organizational Units of Cost Components,
- ❖ Cost Component Groups

Costing Variant Components

- ❖ Define Costing Variant, Costing Type, Valuation Variant,
- ❖ Date Control, Quantity Structure Control
