- ❖ Assignment
- ❖ Assigning all the above defined elements to each other
- ❖ Retail Specific Settings (configuration)

Master Data

- ❖ Customer Master Data
 - ❖ Creation
 - ❖ Change
 - ❖ Display
 - ❖ Mark for Deletion
 - ❖ Blocking
 - ❖ Account Groups configuration
 - ❖ Grouping
- ❖ Vendor Master Data
 - ❖ Creation
 - ❖ Change
 - ❖ Display
 - ❖ Mark for Deletion
 - ❖ Blocking
 - ❖ Account Groups configuration
- ❖ Site Master Data
 - ❖ Distribution Center Creation
 - ❖ Store Creation
 - ❖ Site Profiles Configuration
- ❖ Reference Sites
 - ❖ Update site profiles with reference sites
- ❖ Additional sites Data
- ❖ Site Grouping
- ❖ Article Master Data
 - ❖ Single Articles
 - ❖ Generic Articles

- ❖ Structured Articles
 - ❖ Sales Sets
 - ❖ Displays
 - ❖ Pre Packs
- ❖ Group Articles

Grouping Article

- ❖ Merchandize categories hierarchy creation
- ❖ Assignment of hierarchy levels
- ❖ Creation of merchandize categories
- ❖ Merchandize categories assignment to hierarchy levels
- ❖ Generic articles Characters profile creation and assignment

- ❖ Condition technique configuration
- ❖ Purchase price specific settings
- ❖ Retail specific price configuration
- ❖ Sales price configuration procedure
- ❖ Price type configuration
- ❖ Purchase price determination sequence
- ❖ Sales price determination sequence
- ❖ List fields
- ❖ Control data for price tables and backup
- ❖ Retail Sales Price calculation
- ❖ One Step Price Calculation
- ❖ Two Step price calculations

Retail Promotions

- ❖ Promotions
- ❖ Promotion Type Configuration
- ❖ Promotion planning
 - ❖ Free Goods
 - ❖ Bound Buy
 - ❖ Discounts
 - ❖ Coupons
 - ❖ Flat discount
 - ❖ Subsequent activities
 - ❖ Source determination
 - ❖ Listing
 - ❖ Price Activation
 - ❖ Promotion announcement

Integration Between Retail and POS systems

- ❖ Batch Jobs Creation & Monitoring Batch Jobs
- ❖ Data flow Overview between Retail and POS systems
- ❖ Inbound Profile Configuring
 - ❖ Filters setup
- ❖ Outbound Profile Configuration
 - ❖ Filters setup
- ❖ Retail Specific interface monitoring tools

Cross Application Components

- ❖ ALE Configuration
 - ❖ Logical system creation
 - ❖ Ports creation
 - ❖ Different ports and functionality
- ❖ Partner profile configuration
 - ❖ Inbound
 - ❖ Outbound
 - ❖ Message Control
- ❖ Distribution model view setup
- ❖ Idoc Configuration
- ❖ Change Pointers
- ❖ Master data & Transactional Data Processing
- ❖ Trouble shooting methods of failed idocs
- ❖ EDI over View

After Completion of Course

- ❖ Over View on Implementation projects
 - ❖ Land scaping
 - ❖ ASAP methodology
- ❖ Over View on support projects
 - ❖ Ticket handling
 - ❖ Enhancements
